In my March letter I asked our members to volunteer for some of our events. The response has been very gratifying. In April and May we had 14 volunteer opportunities. Volunteers worked a total of 459 hours, 65% of those hours were by non-board members! As you will read and see in this newsletter, because of their efforts we have been able to accomplish so much more than we could have without them. A BIG thanks for everyone who helped us.

Here are just a few of the highlights:

Garry Longenecker, Nursery Manager, and his volunteers organized the nursery and potted 2,427 trees which will be used by the Chapter and other conservation organizations for a variety of projects. They potted 23 different species of trees including red oak, sycamore, silky dogwood and white spruce.

Faye Haering, Women’s Initiative Coordinator, held our fourth annual Ladies Cold Water Breakfast at the Millport Conservancy. Twenty-five ladies, daughters and granddaughters attended the Breakfast. The Lancaster County Career and Technology Center provided a very tasty breakfast. Volunteers taught them cold water conservation, dry fly casting, wet fly casting, fly tying and even what fishing gear to have in their trunk. The Ladies also toured the Conservancy and Lititz Run to see firsthand the results of the partnership between the Millport Conservancy and Donegal Trout Unlimited. This event has become so popular that Faye had to put 15 ladies on a waiting list.

Paul Zegley, Program Chairman, organized a day of teaching kids how to fly cast at Kinsey’s Kids Day. Chapter members taught 89 kids how to fly cast and introduced them to the sport of fly fishing. A great way to get kids interested in conservation.

Joy McMaster, Vice President, Clay Panekewicz and Bill Nolan held our initial veterans event. Together with several chapter members they taught nine veterans the basics of fly fishing and fly casting. In addition Clay and Bill have held several meetings and educational sessions with veterans.

Greg Wilson, Conservation Co-chairman and other volunteers worked with our partners, the Lancaster County Career and Technology Center providing a variety of projects. A few badges for fishing Millport Conservancy in 2015 are still available for chapter members and members of the Conservancy. Pricing remains $20 in person, $22.50 to cover mailing expenses. You must include your telephone # and membership info. Contact Faye Haering (fayeonthefly@comcast.net) if interested.

Volunteers will be needed to instruct youths in fly casting & fly tying on June 6 at Youth Field Day (Southern Lancaster County Sportsmen). Contact Kevin Faust (kevin40@ptd.net or 717.626.4003) if interested.

PROGRAMS

JUNE

The June Meeting will be our first picnic of the Summer, held at Climbers Run Nature Preserve on Frogtown Road east of Marticville. This will be a Family Picnic, our chance to show off to all of you the amazing transformation DTU, working hand-in-glove with Lancaster Conservancy and many donors and workers, has made to this beautiful native brook trout stream. The picnic will run from 6 - 9 pm, and food & drink will be provided. Please bring folding chairs, and wear appropriate clothing and footwear if you want to wander along the stream.

JULY

There will be no meeting this month.

AUGUST

August will be our final picnic of the summer, at Millport Conservancy. Food and drink will be provided, please bring a folding chair.

PAUL ZEGLEY
PROGRAM CHAIRMAN

CONSERVATION

There is good news to report from Climbers Run Preserve that the construction was completed on April 1st. I encourage all of you to take your families there to visit the site as you will be amazed at the transformation to both the stream as well as the adjacent woodlands. The project consisted of rebuilding 2,200 feet of stream bank by adding mudsills, log vanes, J hooks and stone weirs that help stop erosion, thereby increasing holding water and fish habitat for the resident Wild Brook Trout.

Also, invasive plants and vines were removed from over 15 acres in the Preserve’s woodlands. Trails were built for visitors and students to allow access to both sides of the stream. Wood chips were added to the trails for walking pleasure and 3 signs were added to showcase the achievements.

This $100,720 project was aided by $66,500 in grants obtained from the following organizations: The Nature Conservancy, PATrout, Norfolk Southern Railroad, Exelon, Embrace-a-Stream from National TU, Lancaster Conservancy, Patagonia and the US Fish & Wildlife Service.

There will be tree plantings and maintenance schedules for the Preserve that will follow. Look for DTU to notify you of these upcoming dates.

Another small project was started on April 2, with the US Fish & Wildlife Service starting to remove 5 acres of invasive trees, vines and plants at the Millport Conservancy. That project was finished in mid April. DTU is grateful for the wonderful relationship that we have developed with the service over the past 5 years and plan to build 5 more projects with them in the near future.

Speaking of the near future, DTU is planning on starting construction on two Conowingo Creek projects this summer. We plan to rebuild over 2,800 ft. of stream bank and build a .6 acre wetland on an unnamed tributary to the Conowingo on the Lloyd property along Maxwell Rd. Also, we plan to rebuild 300 ft. of stream on the Stoltzfus property along Conowingo Rd. These $460,000 projects will be funded by a $365,000 grant from DEP and a $90,000 grant from Williams Co. Work should start this summer as all permits are in place.

Future projects include rebuilding Climbers Run on 3 properties along Pennsy Rd., as well as a site along Oregon Hollow Road, building a $510,000 stream restoration project on Conowingo Creek along Black Barren Rd and starting the design work on another large project located on the Conowingo Creek along Goshen Mill Rd.

DTU has applied for several grants to help fund our ambitious workload. We should begin to hear the results within the next 8 weeks.

Bob Kutz wrote a grant application to the DCNR Riverlands grant initiative. He was successful in receiving a $10,000 grant that will be awarded to Drumore Township. This will fund work on the Drumore Twp park section of Fishing Creek. It was designed by USF&WS and was estimated at approximately $69,000, the USF&WS kindly offered a $30,000 in-kind contribution. So with this additional grant we are still searching for $29,000. Bob spoke with Tyler from PA Fish & Boat and they have some funds that will be targeting Fishing Creek so we are hoping to secure some of this funding to complete this project. It is probably about 1/4 mile of stream length.
At Althouse, Martin & Associates, Inc., we give ideas structure.

As one of Lancaster County’s leading architectural designers for more than 35 years, we create aesthetically pleasing, cost-effective architectural solutions that meet your highest expectations.

Thank you, DTU, for your continued support and volunteers!
On Saturday April 4th Garry Longenecker, Kevin Fausey, Matt Seewald & Barry Witmer opened the DTU Nursery for business in 2015, moving it some distance from its previous location and installing piping for the irrigation system.

Since then he has had 5 “pot parties” where 66 volunteers (some making multiple visits) have potted up 2,427 trees and shrubs for use in our projects throughout the county. Additionally over 300 5th-Graders potted up 420 trees on Lititz Run Watershed Day. This is an amazing achievement and each of us should thank Garry personally next time we see him.

MARK MCMASTER

Photos courtesy Jim Wellendorf
DTU will once again hold its Fish & Golf Tournament at Foxchase Country Club. Participants begin the day at 5:30 fishing the course’s ponds, acquiring points for fish caught to be subtracted from their eventual score in a round of golf. Complete rules & regs can be read on our website. Contact Bob Wyble wyble@ptd.net if you’re interested in joining in.
Our 4th Ladies Cold Water Breakfast was declared a success, welcoming 22 ladies and 3 girls and again was held at the Millport Conservancy in Lititz, PA.

The breakfast was again provided by the Lancaster County Career & Technology Center students and served by Cammie.

There were two tying benches with Jan Shenk as well as Mark Ebner (filling in for Bud Glassmoyer, who sadly recently passed away).

We had Jake Villwock from TCO Fly Shop who brought along some gear and ladies’ articles for display for the ladies.

Jake is planning on having two Workshops about ladies’ gear, for which he had a signup sheet for the appropriate dates: May 23rd and May 30.

Moirajeanne FitzGerald manned the registration table.

The casting demonstrations went very well and we had Mark & Joy McMaster and Derek Eberly & Todd Peters giving casting instruction for wet fly casting and dry fly casting.

Mary Kuss, Guide/Instructor and member of Delaware Valley Women Anglers had her first Trunk Show which provided the ladies with an opportunity to see what equipment was used and necessary for both guiding and going out for a day of fishing.

As a finale, Lynn Myers, Executive Director of Millport Conservancy gave a tour of Lititz Run, a premium stream on the Conservancy and Mark Ebner brought the fish pellets that brought oohs and aahhs from the ladies when those huge trout rose to feed.

I feel it would be hard to do better than this event and the success that was evident, but feel sure that we will have another one next year.

Am presently working on lists of ladies who signed up and requested to learn more about the sport of fly fishing and arranging clinics with our chapter members to provide them.

More to come in that department. Stay tuned.

The ladies were invited to our June Picnic at Climbers Run and a tour of the run for the “Wild Brookies” show.

Four of the ladies were selected from the registration to be on the first Ladies Fly On The Run team, donated by LCCTC and both myself and Moirajeanne took them out and gave them some instructions for the event held on Thursday May 14th.

They did really well and caught some nice trout and had a wonderful time, as did we. Moirajeanne & I provided the guiding for them.

Elisa Morrison Nickel, Suzanne Wenger, Jenna Mitchell and Jen Wanner were the team members. I think we’ll hear more from them in the future.

Stay tuned for that story.

FAYE E. HAERING
DTU WOMEN’S INITIATIVE COORDINATOR
Fly On The Run

On Thursday, May 14, volunteers from DTU once again helped out as Stream Guides for Lancaster County Career & Technology Center’s 9th Fly On The Run on Lititz Run. Here are some photos of the day.

MARK MCMASTER

Photos courtesy Joy McMaster & Jim Wellendorf
On Saturday, May 16 volunteers from DTU taught 89 youths from the county the basics of fly casting at the annual Kinsey Kids Day.
On May 6, students from Brad Aungst’s Marticville Middle School class released 200 brook trout fingerlings they’d raised in their Trout in the Classroom program, at Climbers Run Preserve.

On May 12, 19 volunteers, including 7 from LCCTC, stocked trout in Lititz Run for the upcoming Fly On The Run competition.
NEWS FLASH - DTU FIRST

This intrepid reporter has learned that on Saturday May 2\textsuperscript{nd}, the Donegal Chapter of Trout Unlimited held their kickoff event for their Veterans Service Initiative. Fishing Park near Stevens, PA was the location of the gathering hosted by Clay Panekiewicz and Bill Nolan. Nine veterans arrived to get a taste of this sport called fly fishing. Clay reviewed the topics that will be covered in future classroom sessions - the bugs that trout find tasty, the flies used to tempt trout, equipment specific for fly fishing, knots, rigs, and more. Moirajeanne Fitzgerald was in charge of casting instruction. With her guidance, these gentlemen were making very nice looking casts within 20 minutes. Jim Wellendorf and Joy McMaster provided casting assistance. Mark McMaster joined in the classroom discussion. At the end, there was a question/answer session that covered all sorts of tackle.

May 7\textsuperscript{th} saw the first classroom training at Thaddeus Stevens College. Seven veterans learned more about knots and setting up rigs. They also had a review of basic entomology. The next classes will be held May 21 and June 4 at the same location. If you would like to volunteer in order to say “Thank You” to our veterans, please contact Clay or Bill. Any help would be greatly appreciated.

JOY McMASTER
REPORTING FOR THE MAYFLYER

Photos courtesy Jim Wellendorf
County Conservancy, to restore Climbers Run and remove invasive plants at the Conservancy’s Climbers Run Nature Preserve. Visit our website, www.donegaltu.org, to see these amazing results of this conservation project. Or better yet join us there at our annual family picnic on Wednesday June 17 and see it for yourself.

Mark Ebner, Youth Initiatives Coordinator, held our initial Youth Fly Tying clinic. Mark and several volunteers introduced 7 youths to the sport of fly fishing and taught them how to tie several flies. Mark was also very successful in enrolling four youths in the Pennsylvania Rivers Conservation and Fly Fishing Youth Camp at Allenberry, one youth at Wayne’s Cold Water Kids and one youth at the National TU Teen Summit.

Derek Eberly, Board Member-at-Large, coordinated this year’s Fly On The Run event (FOTR) for our Chapter. FOTR is a fly fishing contest sponsored by the Lancaster County Career and Technology Center to raise money for scholarships for deserving students. For the nine years it has been held, our Chapter has provided volunteers to stock Lititz Run and act as stream guides during the events. This year’s event raised over $90,000.

There are two recurring themes in the reports above – volunteers and partnership. Both make a big difference in what we can accomplish. We appreciate everyone who gives us their time and effort to help us accomplish our mission. Please check our website www.donegaltu.org for a list of volunteer opportunities.

Sadly we lost a very good friend in April. Bud Glassmoyer was doing what he loved, fly fishing on Pine Creek, when he fell. Bud was wonderful man and volunteered at many of our events where he demonstrated his fly tying skills. He always donated his flies to the persons he taught. He was the first person to volunteer to lead the Chapter members in reciting the Pledge of Allegiance at our Membership Meetings. At the May 2015 Board Meeting, the Board of Donegal Trout Unlimited voted unanimously to add Bud to our “In Memorium” page on www.donegaltu.org. He is greatly missed by all.

Now that summer is finally here, the picnic season is starting. We are no exception. Please join us for our Family Picnic at Climbers Run Nature Preserve on Wednesday June 17 and our Membership Picnic at Millport Conservancy on Wednesday August 19. Both are open to the public and free. Please make plans to join us. See www.donegaltu.org for details.

Thanks for your continuing support of Donegal Trout Unlimited.

Climbers Run Preserve is greening up nicely. We seeded the native Riparian Buffer mix and have been planting some trees and native understory wildflowers along the disturbed area. We will continue to work on eradicating invasive plants. Two schools released their TIC trout at the Preserve.

LRWA gave a tour of the Rock Lititz storm water basin on May 21st. This is a new approach to storm water management. It looks like LRWA’s 18th year of the 5th grade Watershed Day was a success. The weather was perfect. Garry even ran out of trees for the kids to plant.

LRWA received a $5000 grant that will be used for supplies to continue water quality monitoring. The grant was from Williams $10,000 grant fund. Cargill also donated $2500 to support the Watershed Day.

BANQUET NEWS

Thank you all that attended the banquet. As of today it looks like we should have cleared $19,000. Attendance was down from the year before but we will be working on a better way to contact all non-members that attended, in the future. I would like to thank all our vendors that gave graciously to the banquet and to my fellow TU members who went out and solicited all our fine items this year. You all did a fabulous job. Also, once again I would like to thank Mark McMaster for the fine job he does on the booklet.

Winners: $1000 TCO card - Ted Downs, $500 Bass Pro card - Jim Snively, Columbia, $200 Visa card - Mike Orr, Landisville. We gave away Crossbows, Fly Rods, Cash, TV’s, Camcorders and Shotguns also on special tickets purchased that night. Congrats to all the winners. As the Banquet grows our goal is to have larger giveaways. This is one of the many things our committee will be working on for next year. Save the Date for April 9, 2016. Same place and time. Thanks again to All!!

JIM
At the April 15 meeting the members of the Donegal Chapter of Trout Unlimited were treated to an entertaining and informative presentation by fly fishing author and guide, Gen Giza. He started by telling the audience they needed to master two concepts to improve their fishing – “troutonalities” and USGS water level gauges. He defined “troutonalities as knowing the characteristics of the various trout species. He stressed the importance of being able to interpret the USGS levels for a stream and to know whether or not to or how to fish it.

Gene then proceeded to describe four “unique” fly fishing destinations:

- Pine Creek – 2 .8 miles of “Montana” water near Slate Run, freestone, huge brown trout, major hatches,
- Little Pine Creek – BWO hatch, micro caddis after trico hatch
- Yellow Creek - Near Loysburg, year round opportunities
- Clarion River – 8.6 miles from Johnsonburg to Ridgeway, tailwater, freestone, “western” river, May is great time, sedges.

After a question and answer period, Gene described several of his other presentations the Chapter might be interested in at a later date: Yellow Breeches, Letort, Big Spring, South Holston and Lake Erie Tributaries.

Gene was a board member of Cumberland Valley Trout Unlimited. He is currently owner/operator of Four Season Fly Fishing Guide Service. He has published numerous articles on fly fishing and has presented numerous fly fishing programs. Gene maintains an active website with updates on stream hatches, stream conditions and fly fishing tactics. (www.fourseasonsflyfishing.com)

Banquet from the Inside

DTU held its 36th Spring Banquet on March 28. The Host Inn is a perfect spot for this event. Much time is spent by Dan Brandt and his devoted committee in the months leading up to our major fundraiser. It is my first time at the banquet as attendee and banquet elf. It is always exciting to see the stage set for a production and watch it come to life.

The morning of the banquet, Dan has a crew of volunteers arranging the displays, organizing the various auctions, buckets, baskets, games, and filling the goody bags that are at every seat.

Arriving that afternoon, registration is set up outside the banquet room. Jim Wellendorf, Tom Hall, and Dan Van Buskirk are the welcoming committee. Inside, the room is quiet. Dan and Kevin Fausey, Dan’s right hand man, are making last minute adjustments. As the other elves arrive, the experienced ones take up their posts. As a newbie, I receive instructions, find my table to dump my coat, and then join Jan Shenk. Our duty is to sell the 50/50 tickets.

The banquet attendees slowly begin arriving. People find their tables, acquire liquid refreshment, and explore all of the displays. As more people arrive and meet their friends, the level of noise and excitement expands. The show will soon be under way.

The buffet dinner is set up in the lobby. The food is varied, hot, and delicious. And the desserts - always save room for dessert. As we finish dinner, the many and varied door prizes are awarded. It is like the orchestra tuning up.

The curtain rises. Our president, Jim Wellendorf, gives words of welcome. He singles out the DTU partners that are in attendance- Logan Myers of Millport Conservancy, Mike Burcin of Lancaster County Nature Conservancy, Bob Bachman of PA Fish & Boat Commission, and Tony Gillespie of Lancaster County Career & Technology Center.

Dan resumes his role of stage manager. Tickets are pulled for the buckets, table raffle, 50/50 drawing, winners choice, and CFR rod. Silent auctions are completed and baskets awarded. The vocal auction runs smoothly but is sometimes a little rowdy as friends compete for the same trophy. The drawing of the Super Fund tickets completes the evening.

Curtain down. People collect their winnings, say good night to their new and old friends, and head for the door. Outside, the table of reckoning is manned by Doc Besecker, Dan Van Buskirk, Jim Wellendorf, and Mark McMaster. As all accounts are paid, final jokes, comments, and good byes fill the air.

The room is once again quiet. The hotel staff are clearing the tables. Volunteers are tearing down displays and collecting items that did not sell. Number 36 is over. Soon it will be time to think about improvements for number 37.

Thank you to everyone involved in the banquet. This could not happen without Dan Brandt and his dedicated committee. Thanks to all of the elves working that night. Thanks to the friends of DTU who buy ads in the banquet book, and donate items. A special Thank You to everyone who attends the banquet and spends their money. Without all of you, DTU could not conserve, protect and restore as many cold water streams in Lancaster County as we do.
The Tulpehocken Chapter of Trout Unlimited proudly presents...
George Daniel, author of Dynamic Nymphing, Champion American Fly Fisherman and member of Fly Fishing Team USA will present “Trout Tactics.”

The presentation will include several disciplines including dry fly, nymphing and stream fishing.

George will also provide a fly fishing demo.

Date: Wednesday, June 17th at 6:30 PM to 8:30 PM
Location: Barn at Gring’s Mill
(Across from Penn State-Berks Campus)
Street Address: 2083 Tulpehocken Rd.
Wyomissing PA 19610
Eleven new members joined Donegal Trout Unlimited in March. One of them, Ken Lacy, attended our April 15 Donegal Trout Unlimited Membership Meeting at the Farm and Home Center.

Fran McElhinney, Membership Chairman, is pictured on the left.

Twenty-two new members joined Donegal Trout Unlimited in the past month. Five of them attended our May 20 Donegal Trout Unlimited Membership Meeting at the Farm and Home Center.

Pictured here, left to right: Joy McMaster, Chapter Vice President, Andy Obin, Barb Obin, Jenna Mitchell, Claire Landis and Becky Whitson.

Our Chapter now has 724 members – 683 men, 35 women and 4 young men and 2 young women.

At the April 15 Donegal Trout Unlimited Chapter Membership Meeting, Dick Witwer, Board Member of the Lancaster County Career and Technology Center, presented Jim Wellendorf, DTU President, and Derek Eberly, DTU Board member and Chairman of the DTU Fly On The Run Committee, a check for $700 in appreciation for the work the Chapter does to help with the Center’s Annual Fly On The Run event.

Anthony Gillespie, Executive Director of LCCTC, was also at the presentation but is not shown in the picture.

This year was the ninth annual Fly On The Run. It was held on Lititz Run on May 14. DTU partners with the LCCTC by stocking the Run and providing stream guides. The LCCTC provides food for the Chapter’s Ladies’ Cold Water Breakfast, donates a table at the Chapter’s Banquet, donates a four person team to be auctioned off at the Banquet and makes a contribution to the Chapter. It is a partnership built on mutual respect and cooperation that benefits the Center’s students and Lancaster County cold water conservation.

Donegal Trout Unlimited is a non-profit organization affiliated with National Trout Unlimited located at 1300 North 17th Street, Suite 500, Arlington, Virginia 22209-2404 (703.522.0200)
